## A Memorial List of European Cantors Martyred During the Shoah

Compiled by Joseph Levine, Editor, *Journal of Synagogue Music*,  
and Solomon Mendelson, Past President of the Cantors Assembly

Ephraim Moshe Lilien, "Ghetto Synagogue"

1447 names as of January 1, 2013

*Editor's Note: For this ongoing project to document the hazzanim of Europe whose bodies along with their prayers rose as smoke through the air during the Shoah; additional information from readers of the *Journal of Synagogue Music* or *Helen's Yiddish Dance Page* would be appreciated. The phrase *Ishei yisrael* ("the fiery offerings of Israel") originally described the intensity of religious fervor required for true prayer, as if to say: "May our words have the same meaning and effect as fiery sacrifices once did for our ancestors." It is used here to indicate that in the death camps and elsewhere, **our fellow *sh'lihei tsibbur*--together with their prayers--themselves became the sacrificial offerings of their era.** [JL]*

**Associate Editor's Note:** *For the first time, I feel the need to comment publicly. Halfway through the list of names published in JSM 2011, I had to write for no other reason than being overwhelmed. To no other article in the years that I have formatted the Journal, have I had such an emotional response. With each keystroke, with each name, city and camp, my heart ached. I thought of the hands that first recorded each name, of the people who recovered any fragment of those lists, and of those who promulgated them for us so that we may never forget. We know every one these people listed, for they are us. Please study them with reverence, as I did and shall continue to do. [Richard M. Berlin]*
